LATAM LOCALIZATION

For Microsoft Dynamics 365 Business Central

LATAM Localization

The Solution:

What is LATAM Localization?

LLB Solutions has developed LATAM Localization for Microsoft Dynamics 365 Business Central to integrate multiple companies from different countries within a single production environment, with intercompany functionality across companies using different localizations, while complying with each country's tax laws and regulations.

LATAM Localization for Microsoft Dynamics 365 Business Central is enabled according to the company and the country in which it operates. By specifying the company and country, only the localization initially assigned to that company will be applied, without affecting other companies operating in the same production environment.

This localization allows both international and local companies to use the same functionalities and reports, whether printed or electronic, within a single production environment.

Designed for Regional Operations

LLB's LATAM Localization is designed for companies operating across multiple countries, allowing them to manage their operations within a single environment while ensuring country-specific tax compliance.

- ✓ **Multi-Country**
Manage operations across different Latin American countries from a single platform, backed by more than 17 proprietary tax localizations for the region.
- ✓ **Multi-Company**
Manage multiple legal entities within the same Business Central environment.
- ✓ **Multi-Currency**
Operate in different currencies with automatic calculation of exchange rate differences.
- ✓ **Financial Consolidation**
Gain a unified view of the business with consolidated regional information.
- ✓ **Country-Specific Activation**
Enable only the tax functionalities required for each country.
- ✓ **Single Production Environment**
Centralize operations, reduce costs, and simplify system administration.

Countries with Localization Available in Latin America for Microsoft Dynamics 365 Business Central

This list provides information about the localizations available for each country when working with LATAM Localization for Microsoft Dynamics 365 Business Central.

Click on a country to access the details of each localization.

Our LATAM Localization can be installed in environments in the United States, Canada, and Mexico.

Beneficios para tu empresa

LLB's LATAM Localization not only ensures tax compliance but also streamlines operations and provides complete business visibility within a single environment.

Greater Productivity: By integrating multiple companies into a single production environment, the complexity and time required to manage intercompany operations are reduced.

Greater Profitability: By complying with the tax laws and regulations of each country, companies can avoid fines and penalties that could negatively impact their financial results.

Greater Competitiveness: By facilitating collaboration between companies across different countries, businesses can leverage synergies and capitalize on new opportunities that arise in different markets.

Cost Savings: By operating in a single production environment instead of maintaining a separate environment for each country, infrastructure and maintenance costs are reduced.
